

Quarterly Statistical Update

March 31, 2024

CAPITAL GROUP | **AMERICAN FUNDS**

This update must be used (until superseded) with any American Funds, ABLEAmerica, and CollegeAmerica® sales materials that include investment results for periods ended before the date shown. As a practical matter, financial advisors should consider including this update with all American Funds, ABLEAmerica, and CollegeAmerica sales literature. This material may be photocopied. Investment results updated monthly, and daily share price information, are available at capitalgroup.com.

CollegeAmerica and ABLEAmerica are sponsored by **Virginia529**™

Investments are not FDIC-insured, nor are they deposits of or guaranteed by a bank or any other entity, so they may lose value.

Investors should carefully consider investment objectives, risks, charges and expenses. This and other important information is contained in the fund prospectuses and summary prospectuses, which can be obtained from a financial professional and should be read carefully before investing. Similar information is contained in the CollegeAmerica Program Description and ABLEAmerica Program Description, which can be obtained from a financial professional and should be read carefully before investing. CollegeAmerica and ABLEAmerica are distributed by American Funds Distributors, Inc., which will be renamed Capital Client Group, Inc. on or around July 1, 2024, and sold through unaffiliated intermediaries.

Depending on your state of residence, there may be an in-state plan that provides state tax and other state benefits not available through CollegeAmerica (such as financial aid, scholarship funds and protection from creditors) or ABLEAmerica. Before investing in any state's 529 plan, investors should consult a tax advisor. CollegeAmerica and ABLEAmerica are nationwide plans sponsored by Virginia529.

Small-company stocks entail additional risks, and they can fluctuate in price more than larger company stocks.

Income from municipal bonds may be subject to state or local income taxes and/or the federal alternative minimum tax. Certain other income, as well as capital gain distributions, may be taxable. The Tax-Exempt Bond Fund of America will not invest in bonds subject to the federal alternative minimum tax.

State-specific tax-exempt funds are more susceptible to factors adversely affecting issuers of their states' tax-exempt securities than more widely diversified municipal bond funds.

Fund shares of U.S. Government Securities Fund are not guaranteed by the U.S. government.

Nondiversified funds have the ability to invest a larger percentage of assets in securities of individual issuers than a diversified fund. As a result, a single issuer could adversely affect a fund's results more than if the fund invested a smaller percentage of assets in securities of that issuer. Refer to the applicable prospectus for details.

Investments in mortgage-related securities involve additional risks, such as prepayment risk.

Allocations may not achieve investment objectives. The portfolios' risks are related to the risks of the underlying funds as described herein, in proportion to their allocations.

While not directly correlated to changes in interest rates, the values of inflation-linked bonds generally fluctuate in response to changes in real interest rates and may experience greater losses than other debt securities with similar durations.

Lower rated bonds are subject to greater fluctuations in value and risk of loss of income and principal than higher rated bonds.

The value of fixed income securities may be affected by changing interest rates and changes in credit ratings of the securities.

American Funds Strategic Bond Fund may engage in frequent and active trading of its portfolio securities, which may involve correspondingly greater transaction costs, adversely affecting the fund's results.

The use of derivatives involves a variety of risks, which may be different from, or greater than, the risks associated with investing in traditional securities, such as stocks and bonds.

The return of principal for bond funds and for funds with significant underlying bond holdings is not guaranteed. Fund shares are subject to the same interest rate, inflation and credit risks associated with the underlying bond holdings.

Investing outside the United States involves risks, such as currency fluctuations, periods of illiquidity and price volatility. These risks may be heightened in connection with investments in developing countries.

Although the target date portfolios are managed for investors on a projected retirement date time frame, the allocation strategy does not guarantee that investors' retirement goals will be met. Investment professionals manage the portfolio, moving it from a more growth-oriented strategy to a more income-oriented focus as the target date gets closer. The target date is the year that corresponds roughly to the year in which an investor is assumed to retire and begin taking withdrawals. Investment professionals continue to manage each portfolio for approximately 30 years after it reaches its target date. Payments consisting of return of capital will result in a decrease in an investor's fund share balance. Higher rates of withdrawal and withdrawals during declining markets may result in a more rapid decrease in an investor's fund share balance. Persistent returns of capital could ultimately result in a zero account balance. Investment professionals gradually adjust a college target date portfolio over time so that it becomes more preservation-oriented. The target date is the year that corresponds roughly to the year in which the beneficiary is expected to begin taking withdrawals. The allocation strategy does not guarantee that investors' education savings goals will be met. Investors and their financial professionals should periodically evaluate their investment to determine whether it continues to meet their needs.

Class A shares of the American Funds Multi-Income Sector Fund include seed money invested by the fund's investment adviser or its affiliates. Because 12b-1 fees are not paid on these investments, expenses are lower and results are higher than they would have been if the fees had been paid. On October 30, 2020 Class 529-F-1 shares began accruing a 0.25% 12b-1 fee. If the 12b-1 fee had been in effect at inception, results from inception to October 30, 2020 would have been lower.

Returns at net asset value (NAV) do not reflect a sales charge. If a sales charge had been deducted, the results would have been lower.

Returns shown at maximum offering price (MOP) for Class A, 529-A and ABLE-A shares reflect deduction of the maximum sales charge of 5.75% (A shares)/3.50% (529-A and ABLE-A shares) for equity, Target Date, Retirement Income and most Portfolio Series funds; 4.25% (A shares)/3.50% (529-A and ABLE-A shares) for most College Target Date funds; 3.75% (A shares)/3.50% (529-A and ABLE-A shares) for most fixed income funds, American Funds Tax-Aware Conservative Growth and Income Portfolio; and 2.50% for American Funds Inflation Linked Bond Fund, Intermediate Bond Fund of America, Limited Term Tax-Exempt Bond Fund of America, Short-Term Bond Fund of America, American Funds Short-Term Tax-Exempt Bond Fund, American Funds Preservation Portfolio, American Funds Tax-Exempt Preservation Portfolio and College Enrollment Fund. For money market funds, the annualized 7-day SEC yield more accurately reflects the fund's current earnings than does the fund's return.

You could lose money by investing in American Funds U.S. Government Money Market Fund. * Two SEC yields are shown for some funds. The first number reflects the fee waiver and/or reimbursement; the second does not.

Please refer to important information about risks, fee waivers and expense reimbursements on pages 28 and 29.

Figures shown are past results and are not predictive of results in future periods. Current and future results may be lower or higher than those shown. Investing for short periods makes losses more likely. Prices and returns will vary, so investors may lose money. For current information and month-end results, visit capitalgroup.com.

For money market funds, the annualized 7-day SEC yield more accurately reflects the fund's current earnings than does the fund's return.

Figures shown are past results and are not predictive of results in future periods. Current and future results may be lower or higher than those shown. Investing for short periods makes losses more likely. Prices and returns will vary, so investors may lose money. For current information and month-end results, visit capitalgroup.com.

Returns will vary, so investors may lose money. (American Funds U.S. Government Money Market Fund)

Returns at net asset value (NAV) do not reflect a sales charge. If a sales charge had been deducted, the results would have been lower.

Returns shown at maximum offering price (MOP) for Class A, 529-A and ABLE-A shares reflect deduction of the maximum sales charge of 5.75% (A shares)/3.50% (529-A and ABLE-A shares) for equity, Target Date, Retirement Income and most Portfolio Series funds; 4.25% (A shares)/3.50% (529-A and ABLE-A shares) for most College Target Date funds; 3.75% (A shares)/3.50% (529-A and ABLE-A shares) for most fixed income funds, American Funds Tax-Aware Conservative Growth and Income Portfolio; and 2.50% for American Funds Inflation Linked Bond Fund, Intermediate Bond Fund of America, Limited Term Tax-Exempt Bond Fund of America, Short-Term Bond Fund of America, American Funds Short-Term Tax-Exempt Bond Fund, American Funds Preservation Portfolio, American Funds Tax-Exempt Preservation Portfolio and College Enrollment Fund. For money market funds, the annualized 7-day SEC yield more accurately reflects the fund's current earnings than does the fund's return.

You could lose money by investing in American Funds U.S. Government Money Market Fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. Investing for short periods makes losses more likely. Prices and returns will vary, so investors may lose money. For current information and month-end results, visit capitalgroup.com.

Returns at net asset value (NAV) do not reflect the contingent deferred sales charge (CDSC) (1%) on shares sold within the first year of purchase. If the CDSC had been deducted, the results would have been lower.

Returns shown at maximum offering price (MOP) for Class A, 529-A and ABLE-A shares reflect deduction of the maximum sales charge of 5.75% (A shares)/3.50% (529-A and ABLE-A shares) for equity, Target Date, Retirement Income and most Portfolio Series funds; 4.25% (A shares)/3.50% (529-A and ABLE-A shares) for most College Target Date funds; 3.75% (A shares)/3.50% (529-A and ABLE-A shares) for most fixed income funds, American Funds Tax-Aware Conservative Growth and Income Portfolio; and 2.50% for American Funds Inflation Linked Bond Fund, Intermediate Bond Fund of America, Limited Term Tax-Exempt Bond Fund of America, Short-Term Bond Fund of America, American Funds Short-Term Tax-Exempt Bond Fund, American Funds Preservation Portfolio, American Funds Tax-Exempt Preservation Portfolio and College Enrollment Fund. For money market funds, the annualized 7-day SEC yield more accurately reflects the fund's current earnings than does the fund's return.

American Funds U.S. Government Money Market Fund may suspend 12b-1 payments under agreements between its principal underwriter and intermediaries and other entities that sell fund shares. Please refer to the prospectus for additional information.

⁴ The 30-day SEC yield for American Funds Tax-Exempt Preservation Portfolio and American Funds Preservation Portfolio are calculated using the income earned by the fund over the past 12 months, which is then translated to a daily rate that is used to calculate the 30-day yield. The calculation for bond funds, however, reflects income earned over the past 30 days. As a result, during changing rate environments, the SEC yield for a fund of funds, whose underlying funds are primarily bond funds, may meaningfully differ from that of its underlying bond fund holdings.
